SCAMS & SCHEMES *Customer Awareness*

If you have a Visa credit/debit card, this information is **VERY IMPORTANT!** Verified by Visa is a fraud prevention program that can save you from the hassle of unauthorized online activity on your card. When you enroll, you select a password that participating merchants will require you to provide before they honor your Visa card online.

More and more merchants are starting to participate in this to avoid the aggravation of processing disputes. We are told that eventually ALL merchants may be required to participate and all cardholders will need a Verified by Visa password for online purchases. This is an additional level of protection that is simple to do right now. Don't let a crook enroll your card number and use it against you!!!

To sign up, go to www.visa.com/verified. You can also access this site from our First National Bank website by navigating Banking Services/Credit Cards.

REMINDER!

Due to the high usage of mobile phones instead of land lines, please let us know if your land line is no longer active and if you are using your mobile phone number as your primary contact number!
